### Ashley Action!

**Practical Learning - Biodegradable and Non-Biodegradable** Students in 9JO have explored the effects of different ordinary household items and have considered how their rubbish affects local landfills by considering varying decomposition times as they sorted through pictures of socks, t-shirts, leaves, fruit peels and juice boxes into a timeline.

**Sausage Rolls** 7LA has been learning about different pastries over the last few weeks and exploring what can be made from the many types of pastry and how they can be used in a range of different dishes. Last week was puff pastry and in order to prepare their sausage rolls, the students learned how to handle raw meat and the oven safely.

**9KD RE** Students have been looking at Hindu views on life and death. Most Hindus believe humans are in a cycle of death and rebirth called samsara. When a person dies, their atman (soul) is reborn in a different body. Students could discuss their views in class and give their own opinions on their beliefs.

**Traditional Christmas Dinner** School will serve Christmas Dinner on Wednesday 20<sup>th</sup> December. Roast Turkey & Stuffing, Chipolata & Gravy served with traditional vegetables and will cost £2.70.

**Christmas Jumper Day** is Save the Children's annual event which raises money for children who need it most. On Wednesday 20<sup>th</sup> December, we put on a festive knit and make a donation to help give children the magical future they deserve. Please bring in £1 donation!

### Skills Builder Challenge – Aiming High

Think of a task that you do on a regular basis. For example, brushing your teeth or reading a book. What do you need to do this task really well? For example, to concentrate on reading, you might need to remove distractions or find a quiet place in the house.

Once you have completed this task, how do you know that you have completed it well? How does it feel when you have done something well?
