## Ashley Action!

**Spreading Festive Cheer in Partnership with Widnes Rotary** Ashley High School was delighted to support the local community, by volunteering with the annual Widnes Rotary Christmas Float Appeal. Several staff members dedicated their evening to helping the float tour the area. The highlight was seeing the faces of so many excited children waiting to catch a glimpse of Father Christmas! We are proud to partner with organisations that bring such joy to the local area.

**Hospitality Students Review Industry Standards** Our Hospitality students recently visited McDonald's to gain hands-on experience in evaluating a professional food service operation. Their assessment covered crucial areas such as food and service quality, value for money and menu presentation. These real-world observations are essential to their studies!

**Culinary Success in Home Cooking Skills!** Two Year 10 students smashed their Home Cooking Skills assessment this week, showing off great talent! Maxy wowed us with a delicious homemade beefburger and seasoned fries, demonstrating excellent technique. Kyra delivered a comforting, flavourful lasagne. These dishes truly reflect their dedication and newfound confidence in the kitchen!

**Year 9 Students Master Conditional Logic** 9RF Computing students recently achieved a significant milestone by integrating If-Then statements into their Scratch projects. This core programming concept allows their creations to make decisions, enabling the development of truly interactive and dynamic games and simulations. By successfully applying this conditional logic, students have demonstrated a fundamental understanding of how to control program flow and respond to user input—essential skills for any future IT pathway. Well done, 9LQ!

**School Christmas Lunch Reminder!** Don't forget! Our School Christmas Lunch is scheduled for Tuesday, December 16th. Please ensure all payments are submitted to the school office promptly so your child can join us for this special festive celebration!

**Wishing all our students, parents and staff a wonderful Christmas and a happy and healthy New Year!**

## Skills Builder Challenge – Teamwork

Work with your family to plan a fun outing or adventure for everyone. Together, decide where you'll go, what you'll need to bring, and how you'll get there. Try to ensure that everyone contributes to the planning of your adventure.
