Ashley Action!

Welcome back Happy New Year! We are delighted to welcome everyone back to school after a wonderful Christmas break. We hope you're all feeling refreshed and ready to dive back into learning with renewed energy!

Safety and Health in the Kitchen Students from 7CB were able to explain the basic concepts of food safety, understand common kitchen hazards, explain the significance of maintaining proper hygiene in the kitchen, and use an interactive game to identify potential hazards that could arise in the kitchen.

Practical Learning 9JO students' last assignment was to find out how much money they made from their movie afternoon mini-enterprise. Students teamed up to find out how much money we made. We made £142.77 and we will put this towards our "sensory path." Thank you to everyone who put in so much effort to make the movie afternoon a fun one.

Independent Living In their lessons on independent living, Year 11 students prepared and served hot beverages to one another. Following directions, measuring ingredients, using kitchen appliances safely and adhering to health and safety regulations are all part of making hot beverages. Over the coming months, students can learn and practice these important life skills.

8LQ were visited by Halton Health Improvement and were given a presentation to help them understand the various impacts of smoking and vaping, as well as where to find support to quit either. Students were able to identify potential negative effects of smoking and vaping, explain the differences between the two, refute myths about them and identify resources for support.

Skills Builder Challenge – Teamwork

Work with your family to plan a fun outing or adventure for everyone. Together, decide where you'll go, what you'll need to bring, and how you'll get there. Try to ensure that everyone contributes to the planning of your adventure.
