Ashley Action!

Arrive Alive: Independent Travel Training Students in Year 10 talked about what makes a "vulnerable road user" and when are cyclists and pedestrians especially vulnerable, as part of their travel training sessions.

Animal Care During their Animal Care class last week, Year 10 students had the great privilege to handle a snake. Students talked about the different kinds of snakes, their diet, their movements and their habitats. Additionally, students investigated and studied the various snake species.

Home Cooking Skills Congratulations to Lil in Year 10 for completing her assessment successfully and creating a tasty chicken pasta bake. Skills included gathering the necessary equipment and ingredients, measuring out the pasta, filling a kettle with cold water that was ready to boil, adding the ingredients and stirring the sauce and slowly heating olive oil in a frying pan.

Year 7 Hot Sandwiches Students in 7CB made and evaluated a hot sandwich to show off their cooking skills. Students made decisions about the bread they would use and the fillings they would use to make their hot sandwich. Andre is shown here with his toasted chicken and cheese sandwich. Excellent work!

9JO Practical Learning The students are now advertising for the school's movie afternoon. Students created posters to promote the event after examining various advertisements and taglines.

Gardening Year 11 students have been cutting down the old poppies so that we can dry them out and replant the seeds in the future.

Skills Builder Challenge – Staying Positive

Think of one person each day you can say something kind to, perhaps you could give them a compliment, say thank you or give them some encouragement.

Think about how you will deliver this message. Will you tell them in person or write it down?
