Ashley Action!

Transition Day Welcome to our New Year 7's who will be joining us in September! The children spent the day meeting with staff and other students to get themselves settled in to their new school. Year 6 had the opportunity to have a tour of the school, spend time with their new classmates and have taster sessions in Science, Food Technology and Design Technology. Year 6 parents are kindly invited to a transition meeting at 1.30pm at Ashley High School. For more information, please contact Mr Jones.

Narrowboat Trip It was finally that time of the year where students could enjoy their first annual narrowboat experience in 3 years! Students enjoyed socialising with their classmates outside of school, helped navigate and open locks for the boat, had BBQ's and evening meals at local pubs and enjoyed the beautiful scenery along the way.

6th Form students had a tour of a new building site as part of their P4A lesson. Keepmoat Homes Ltd is a housebuilding company in the United Kingdom that provides private homes for sale. Students discovered the many job opportunities that were available to them, whether that is working in construction or working in clerical and administration jobs at KeepMoat.

Hot and Cold Sandwiches Year 8 students have chosen different types of breads, fillings and spreads used in sandwich making and have experimented with the taste of a variety of ingredients used in building their own sandwich. Students were able to analyse and evaluate the flavour combinations that they had created.

Milkshakes and Hot Drinks Year 7 students prepared and sampled milkshakes and hot drinks in their Food Technology lesson. Students were able to select different fruits to prepare and make their milkshakes and safely use an electric kettle to make a hot drink of their choice.

Skills Challenge – Problem Solving

Imagine you own a pet. What animal is the pet? What would it take to look after this pet? What challenges might you face, when looking after this pet? Write a guide to looking after your imaginary pet.
