Ashley Action!

9AK have been putting their maths skills into practice during their recent P4A (Preparation for Adulthood) lessons by learning all about handling money. From budgeting and working out change to understanding real-world costs, students showed great focus and enthusiasm as they built essential life skills for the future. We are proud of their hard work and practical problem-solving.

Sensational Effort! We Raised £415.10! A huge thank you to our wonderful school community for supporting our recent Macmillan fundraising event. Thanks to your incredible generosity, enthusiasm, and teamwork, we are thrilled to announce that we raised a grand total of £415.10! Every single penny makes a real difference, and we truly couldn't have achieved this without you. Thank you for helping us support such a worthy cause!

7LA students have been getting creative in the kitchen, making delicious pasta bakes while exploring the wonderful world of pasta. As part of their practical cooking lessons, they learned to identify and name different pasta shapes and varieties, discovering how each pair with different sauces.

Year 12 students recently took part in a hands-on activity studying illegal drugs and health awareness. They matched descriptions to images to learn key facts, then researched how different substances affect the body. It was a great way to build research skills while learning about health and safety.

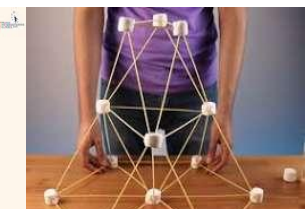

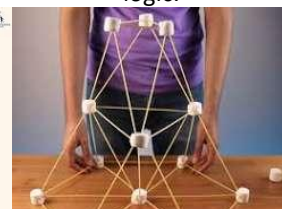

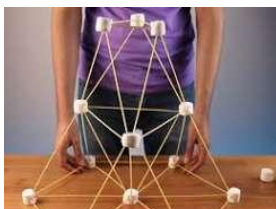

8CP have been diving into Willy Russell's Our Day Out, exploring how stage directions bring a script to life. Here they are putting their acting skills to the test with their best looks of "obvious disapproval"!

WORLD'S BIGGEST MORNING COFFEE MAC MILLAN CANCER

Skills Builder Challenge – Creativity

Build the tallest self-supporting tower using raw vegetables, dried spaghetti, and marshmallows to test structural design and spatial logic.
