Ashley Action!

Class 7/8CB have been diving into the world of colour theory in their art lessons! Using watercolours, the students have been experimenting with bold contrasts, and new colour mixes to see how different shades can change the mood and energy of a painting. Keep up the brilliant work!

As part of their practical gardening lessons, Year 11 rolled up their sleeves to transform the overgrown garden at the back of the school. By clearing weeds, pruning bushes, and prepping the soil, the students demonstrated great teamwork and practical skills, leaving the area looking neat, welcoming, and refreshed!

11LD worked exceptionally well with Mrs. Quinn and Miss Pennington this week, practicing their analogue time-telling skills. A special well done to Logan and Will, who achieved the highest scores in our "against-the-clock" challenge!

A huge well done and thank you to our whole school community—students, staff, and parents—for coming together to support our Macmillan fundraiser. Thanks to your incredible generosity, dedication, and teamwork, we have raised a fantastic amount for a truly wonderful cause! We will give you a grand total in next week's newsletter.

Skills Builder Challenge – Creativity

Draw a picture of a brand-new magical creature all by yourself. Think about what you want your magical creature to be able to do - does it fly? Does it help people? Is it part animal or plant? What colour is it? Try to: Imagine different things to come up with a new magical creature. Share what you imagine by drawing your magical creature on paper. Express what you imagine in different ways by making your magical creature drawing look amazing and colourful.
