## Ashley Action!

**7CB Bakes Up Culture!** 7CB students have been exploring Judaism in Beliefs and Values. They put their learning into action by making traditional Challah bread, which is often enjoyed during Shabbat (the Jewish day of rest).

**Cheshire Police Museum Visit** Year 10 Uniformed Services students recently visited the Cheshire Police Museum, where they learned about the history of policing in the county. They explored the original Victorian cell blocks and got a sense of what life in a prison cell would have been like. Students also saw a range of old police equipment, including uniforms they could try on, handcuffs, truncheons, bicycles and the cell door from the condemned cell at Knutsford Prison. Students enjoyed sitting in a real police car and turning on the blue lights and sirens and they entered the museum through a fun, Tardis-style police box entrance. It was an interesting and enjoyable trip that helped students understand the world of policing more clearly.

**Science in Action: The Colourful World of Diffusion!** Students in 7CB Science have been exploring the fascinating process of diffusion. They conducted an engaging experiment by arranging Skittles in a circle and adding water. As the food colouring dissolved and spread, they were able to directly observe diffusion at work, gaining a clear visual understanding of how molecules mix and move through a solution.

**Home Cooking Skills Assessment** For their home cooking assessment, Jamie prepared a flavourful Chicken Curry, while Chantelle presented a creamy Chicken Pasta Bake. Both students successfully completed their dishes, showcasing good technique and culinary confidence.

**Christmas Lunch – Tuesday 16th December** Get ready to celebrate the festive season with our delicious Christmas Lunch on Tuesday 16th December! Students can enjoy a traditional Christmas dinner—complete with all the trimmings—for just £3.60, or free of charge for those entitled to free school meals. It's the perfect way to kick off the holiday spirit, so don't miss out!

## Skills Builder Challenge – Creativity

Imagine you can have any pet in the world, even if it does not exist: what pet would you have? Draw your pet and describe it. What does it eat? Where does it live?
