Ashley Action!

School Eye Care Service If your child has their eye care provided in school by Warrington and Halton Teaching Hospitals please could you take part in a short survey to let them know your views on the Eye Care Service provided in school. There are 9 questions to answer and will give the service some invaluable feedback about what you think and feel about the service and help us to improve it. Please visit the link below. The survey will be active until the 28th of May.

Students in Year 12 have been participating in mock interviews to help them develop their interview techniques. Local employers including KeepMoat Construction and representatives from Job Centre Plus and the Merseyside Apprenticeship Hub, have all volunteered to help our students gain valuable skills. All students who have completed a mock interview so far have reported that they felt nervous at first but enjoyed receiving the positive feedback!

Makocreate New Course Audio Production Basics. This course is part of Makocreate's Creative & Digital Careers in Halton programme, which provides FREE training opportunities in Digital Arts & Technology skills for unemployed adults aged 19+, who live in Halton (Widnes & Runcorn). All participants who complete the course receive a £20 Amazon Voucher. This course commences May 7th, 10am-12pm. For more information visit: <https://www.makocreate.co.uk/class/audio-production-basics-3-weeks-age-19-halton/>

Year 11 students have been doing a fantastic job with the new and improved garden at the rear of the school. Being outdoors has many benefits to student's well-being and development. It has a positive impact on mental health as the body increases production of the feel-good hormone serotonin and reduces production of the stress hormone cortisol. Keep up the great work!

And Finally...

Students were delighted to hear of the safe return of local cat Amber who went missing last week.
