Ashley Action!

7SA Maths Students have been practicing measuring as part of their maths lessons. Students practised using rulers before measuring the lengths of different things.

Practical Learning 9AK have been learning what the different washing label signs mean. This means that students will have a better understanding of how to look after clothing properly and prolong the lives of their own clothes!

Hough Green Park Year 14 students, as part of their work placements, visited Hough Green Park to plant vegetables and clean the surroundings gardens. Students worked extremely hard to keep the grounds clean and tidy and even got to take home pots that they have planted with daffodils.

Digital Arts - Hangouts We have just had our first session with Digital Arts - Hangouts. This week it was Stop Motion and Animation. This club is for students aged 16+. Students were fully engaged and produced some excellent short animation clips! Next week is Digital Animation!

Dungeons & Dragons We are now running two sessions per week for this very popular club. Chris Moss has kindly volunteered to run these sessions and our students have all been very engaged and enthusiastic!

Skills Builder Challenge – Staying Positive

Think of an activity, task or situation that you find challenging. What would success look like for you in this situation? Draw how your success would look (or write it down). What steps could you take to make this success real?
