Ashley Action!

Sushi Making Year 9 students took part in making Sushi as part of their Food Technology lesson. Students spent the lesson learning how to make their own Sushi and finding out about Japanese culture. This lesson is designed to use Sushi as a platform to address healthy eating, social eating and basic food preparation skills.

6th Form Students have planned and made a meal that they would cook at home for themselves. Learning how to shop and manage money is important for independent living. People who live on their own need to know how to plan meals in advance and how to shop for groceries. This includes buying items that will last a few days or longer.

Pets At Home visit Year 10 students visited Pets at Home as part of their Animal Care studies. Students looked at what the store had to offer to customers and their pets.

BTEC Home Cooking Skills Tyler in Year 10 has planned, prepared and made a delicious gluten free apple crumble. Students have to plan and make a two-course meal as part of their qualification.

Widnes Vikings Year 12 students visited Stobart Stadium in Widnes to look at career opportunities in sport. Students had the opportunity to speak to staff about their job roles and what the stadium has to offer to the public.

Skills Challenge – Creativity

Imagine you are a designer for a greetings card company. You have been asked to come up with ideas for a brand new range of cards. Design three different types of cards for different occasions that are important to you and your family. You might want to draw or make the card to show your favourite ideas. Ask a family member which card they like best and why. You could challenge them to come up with ideas for your new range of cards too.
