Ashley Action!

A Taste of Italy! Students in Year 9 have made delicious Spaghetti Carbonara. Students could select the correct ingredients and equipment to prepare their dish and cooked their spaghetti 'al dente'.

We are delighted to announce that we have raised £150 for 'Cash for Kids'. Cash for Kids supports children and young people affected by poverty, abuse, neglect, life-limiting illness and those who have additional needs.

Mock Interviews 6th Form students had the opportunity to take part in practice interviews. This offers a fantastic opportunity for students to have a realistic job interview with business people.

Year 11 students have planned and prepared a variety of dishes using potatoes as part of their Gardening course. Students made potato salad with herbs, mashed potato and roast potatoes made in the air fryer.

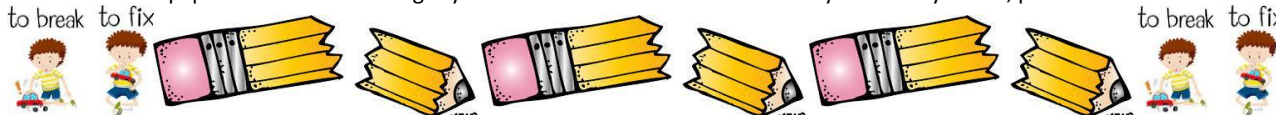

Virtual Reality All students took part in an exciting VR taster session. Using virtual reality (VR) headsets and a specially created 'Let's Explore the Visitor Economy' programme, students could experience what it is like to work at Knowsley Safari in the comfort of their classrooms. The 'Let's Explore the Visitor Economy' programme has been developed based on the many careers at Knowsley Safari and brings these to life in a virtual world. Students can experience what it is like to be an animal keeper, as well as what's involved working in the Safari's busy restaurant and outdoor food court.

Skills Builder Challenge - Problem Solving

Consider the problem: do we need to throw away old or broken things? With the help of a family member, pick an old or broken item in your house. Should you throw it away or can you fix or re-purpose it? Try to come up with a few different ideas of different ways you could use this item.

What other equipment or resources might you need? Which idea is the best? Why is this? If you can, pick an idea and make it.
