Ashley Action!

Our creative Year 7 students have been busy in ICT developing their digital and presentation skills. The classes have been researching endangered animals from around the world to design and build their own PowerPoint presentations. After mastering formatting, layout, and research techniques, the students stood up to showcase their final slides to the rest of the class. It was fantastic to see their tech skills growing alongside their passion for wildlife conservation.

A huge congratulations to Amelia, Alex, Joseph and Riley in Year 10 Home Cooking Skills for successfully completing their recent practical assessment. Students demonstrated fantastic kitchen confidence, focus, and culinary skill to scratch-make a delicious, perfectly baked pizza. It is wonderful to see our students mastering vital life skills and creating such high-quality dishes. Keep up the brilliant work!

Year 10 students took part in a deeply moving and educational visit to the cenotaphs in both Widnes and Runcorn. As part of their learning, the students explored the local war memorials on both sides of the Mersey, taking time to pay their respects and reflect on the sacrifices made by members of our local community. The students showed immense maturity and respect throughout the day, representing our school beautifully at these important local landmarks.

10AC have been busy developing their practical maths skills by mastering liquid measurements. Using measuring jugs, the students worked on accurately reading scales, estimating capacities, and understanding different units of volume. It was a fantastic, hands-on session that brought classroom learning to life and helped build vital real-world skills for the future.

Year 11 students recently took part in an exciting Taster Day at our 6th Form College to glimpse life after high school. The students dived into hands-on sessions across catering, employability, and animal care, giving them a real feel for the college environment and the diverse pathways available. It was a fantastic opportunity for them to explore their options and discover what staying on for the next chapter of their educational journey could look like.

9JO recently visited IKEA as part of their P4A learning journey! Students did a fantastic job completing a series of practical tasks, including confidently ordering their own food at the café. Everyone loved trying the hot dogs, meat/veggie balls, and delicious cinnamon rolls—and a highlight for many was exploring the different scented candles. Well done to all of 9JO for working so hard. You were a true credit to our school.
