### Ashley Action!

**7CB** revisited Excel by creating a simple zoo pricing spreadsheet. They chose their own animals, decided how many of each they wanted and entered this data into cells alongside individual prices. Using basic formulae, they calculated the total cost for each animal and then used equations to add up an overall total. This activity helped reinforce their understanding of data entry, cell references and simple calculations in a practical and engaging way.

**7SA** had a fantastic time preparing and making their own freshly made cheesy garlic bread, developing their practical cooking skills along the way. They also showed great creativity by designing their own pizza companies, which they proudly displayed on their personalised pizza boxes. Well done, everyone—you came up with some brilliant company names and your designs were fantastic!

**8AC** explored the idea of advertising a job as an explorer by watching a clip from the film 'Up'. They considered what an explorer like Russell would need in their kit bag, as well as the key qualities required for the role. Students generated some really thoughtful ideas, listing essential equipment and identifying fantastic personal qualities such as bravery, curiosity and resilience.

**10L had a fantastic** visit from Chris for a hands-on cricket workshop! Students picked up expert tips on batting, bowling and fielding before heading to the nets for some high-energy practice. It was a brilliant session that left everyone bowled over with excitement. Thank you, Chris, for helping us level up our game on the pitch!

**9JO and 9RF** had a fantastic morning at Delamere Forest, putting their teamwork and creativity to the test with a shelter-building challenge. Students had a great time constructing dens from natural materials—a perfect, hands-on day of learning outside the classroom!

### Skills Builder Challenge – Listening

Ask a family member or friend to read you an interesting news story or tell you about something interesting that has happened. Your aim is to show you are listening by using eye contact but also be able to summarise the story after they have told you it.
