9AK	E.Cox		

Ashley Action!

Students in Year 9 made delicious beef/chicken burgers in their Food Technology lesson. Students could select the correct ingredients and equipment to make their burgers and could evaluate how they could improve their burger when making them again.

9AK Practical Learning Students discussed and were given the task of what they thought was a high/low-paid job and what skills and qualifications were needed to get these jobs.

Year 7 students learned how to use an oven and hob safely and competently as part of their assessment for 'Progress Week'. Students correctly used the hob and oven and could explain what type of foods were cooked in the grill, oven and hob.

8MS have had a special delivery this week! They have a new class friend who will be with them until 20th December. His name is Gimbel Bottombess and we hope he settles in well.

Let's make soup! Students in year 11 have prepared and made a delicious and comforting tomato soup as part of their gardening course in which they have been researching home-grown vegetables and soup ideas. Students worked together to peel, chop and finish the soup off with a garnish.

School will serve Christmas Dinner on Wednesday 14th December. Roast Turkey & Stuffing, Chipolata & Gravy served with traditional vegetables and will cost £2.50.

Skills Builder Challenge – Creativity

Design a comic book, where the characters are members of your family. What could happen in the story? How might the characters interact with each other? Share the comic with your family and ask them what they enjoyed about it
