Ashley Action!

Christmas Shopping Trip 8AC went to Green Oaks in Widnes to look at the Christmas decorations and visit a few shops.

In their Animal Care lesson, Year 10 students had the opportunity to get up close and personal with a real cockatoo. Students gained knowledge of the various cockatoo species, their sizes, lifespans, eating patterns, and behaviours.

Home Cooking Skills Callum did a great job on his evaluation. As one of his two courses, Callum has prepared a delicious soup of orzo and pesto. Callum has demonstrated that he could weigh and measure accurately and tasted and seasoned the soup throughout the cooking process to help build flavour.

In their Food Technology lesson, Year 10 students Archie and Rohan prepared some delectable Samosas. They gained knowledge of the various seasonings and spices used in Indian cooking as well as how to fold samosas.

Science 7CB have been looking at diffusion within liquids. They used food colouring with both hot and cold water to see how long it took for the food colouring particles to diffuse and move into the water. They found that diffusion happened quicker in the hot water because the particles have more energy and move faster at higher temperatures, therefore speeding up diffusion.

10RH RSE Designing a self help leaflet Students have chosen to design and make leaflets on mental health and are researching strategies to help people who struggle with day-to-day tasks and what help there is out there for people who require it.

Traditional Christmas Dinner School will serve Christmas Dinner on Wednesday 20th December. Roast Turkey & Stuffing, Chipolata & Gravy served with traditional vegetables and will cost £2.90.

Skills Builder Challenge – Aiming High

Pick one task you do often, like organising your school bag or doing a chore. Aim to do it better than ever before! Think about steps you can take to make it your "personal best," such as doing it faster, more neatly, or with more focus.
