

Dear Parent/Carer,

We are writing to inform you that we have a pupil in school with a severe nut allergy.

To ensure the health, safety, and wellbeing of all our children, we are working towards establishing a safe, allergen-managed school environment. Anaphylaxis to nuts can be extremely severe, and even trace amounts can trigger a dangerous reaction.

We kindly ask for your full support and cooperation with the following:

- **Avoid Bringing Nuts into School:** Please do not send your child to school with any food items containing nuts or nut traces. This includes items such as peanut butter, chocolate spreads containing nuts (like Nutella), cereal bars, certain biscuits, and snacks containing nuts.
- **Reinforce the Safety Message:** Please talk to your child at home about the importance of not sharing their food, snacks, or drinks with their peers.
- **Monitor Packed Lunches and Snacks:** Please regularly check ingredient labels and monitor what your child is bringing into school to ensure it is nut-free.

While we take rigorous measures within the school to manage risks, we rely heavily on the support and vigilance of our parent community to keep our environment as safe as possible for everyone.

Thank you so much for your understanding, cooperation, and help in safeguarding our pupils.

Yours sincerely,

Diane Wilson
