Ashley Action!

Copyright Task In their ICT lesson, students learned about copyright and why it's important in the digital world. They explored how copyright protects original work such as music, images, videos and written content and discussed the consequences of using someone else's work without permission. The lesson helped students understand how to use and credit digital content responsibly, as well as the importance of creating their own original work.

Our Year 11 gardening students visited Rivendell Garden Centre to connect their classroom learning with the real world! They explored everything from plants and tools to composting and garden maintenance, even getting valuable insights into the commercial side of the business.

Year 10 Uniformed Services students got a taste of the field life by tackling an outdoor cooking session with camp stoves! They successfully built practical skills like safe cooking, resource management and teamwork—all essential for a rewarding career in the services. Excellent work!

7LA students recently enjoyed a practical cooking session where they made sausage rolls from scratch. Through this activity, they developed key skills such as measuring and handling ingredients, using kitchen equipment safely and following a recipe step by step. They also practised basic food hygiene and improved their confidence in the kitchen. The session was a fun and hands-on way to build their cooking abilities while learning about working independently and staying organised.

Liverpool Crown Court Year 13 students recently visited Liverpool Crown Court as part of their studies to gain first-hand experience of the legal system in action. During the visit, they had the opportunity to observe real court proceedings, explore the layout of the courtrooms and learn about the roles of legal professionals such as judges, barristers and court clerks. The trip provided valuable insight into how justice is administered and helped bring their classroom learning to life in a practical, engaging way.

Skills Builder Challenge – Staying Positive

When inventing the lightbulb Thomas Edison tried and failed many times. He is quoted as saying, 'I have not failed. I have just found 10,000 ways that do not work'. Talk to a family member about this quote. Share your feelings about a time when you have experienced a sense of failure and how you kept going.
