Skills Builder Challenge – Listening

Ask a family member, teacher or friend to speak to you in detail about a specific topic. While they speak, your challenge is to listen actively. Keep your eyes on them, stay focused and try to recall at least three key details from what they say. You might use one of the questions below or come up with your own: What is a book you've read or a movie you've seen recently, and what was the best part about it? How was life different for you when you were my age? What is your favourite place and how would you describe it using the five senses?
