Resilience Honesty Respect Responsibility Aim High Team Spirit

## **Ashley Action!**

<u>Ice Cream</u> With the arrival of hopefully warmer weather, Year 10 Home Cooking Students have collaborated with NinjaCREAMi to craft their own Ice Cream creations. To create an ice cream that they could enjoy, students chose various flavourings and colouring's along with a tasty twist of Oreos, Crunchies, Kit-Kat, or Twirl. This is Jacob, who decided to make strawberry ice cream using strawberry flavouring, food colouring and fresh strawberries.

<u>The last budgeting</u> trip for Year 9 students was to Aldi in Widnes. It was interesting to compare prices from Tesco, Morrison's and Asda stores that we have visited in recent weeks. Overall, we determined that shopping at Aldi was less expensive.

<u>Students in Year 13</u> have discovered that feeling more confident in yourself can increase your sense of accomplishment. Students now know that having self-confidence increases the likelihood of setting both ambitious and doable goals and having confidence in your skills can inspire you to work hard.

<u>All Year 9</u> students attended a presentation from Riverside and Cronton College to help them start thinking about the future. It was useful for students to hear about the different pathways that they could take and the qualifications that they could work towards after they leave school.

## Skills Builder Challenge - Speaking

Organise a game of 'Who am I?' with your family or friends.

Each member of the family writes the name of a famous person and places it in a bowl. Take it in turns to pick a name, describe clearly the person without saying their name and see if your family can guess who it is.
